CASCADE HYBRID MADONNA LILY (*Candidum*)

FB 64. The Cascade Madonna Lily is the result of a life-time's work by a Lily expert in France plus years of selection and hybridizing in this country by Mr. Jan de Graaff. The result is a strain of surpassing vigor with tall straight stems, larger flowers of unusual texture and perfect form, and great resistance to botrytis. This is the really first great improvement in the Madonna, the oldest Lily in cultivation. The flowers are delightfully fragrant, much larger than pictured and pure snow-white. Plant them this fall, the earlier the better. Select a sunny, well-drained spot and plant the bulb rather shallow, so that the top of the bulb is not over an inch or two below the surface of the ground. Mulch lightly over winter. They will bloom next season and years to come, increasing in beauty each passing year.

Large bulbs, each 75c; 2 for \$1.25, **Postpaid**

MADONNA LILY, French-Grown

FB 69. Until the Cascade strain was available, the Madonna from northern France has been considered the best. Blooming in late spring, early summer, the pure white flowers are so fragrant and exquisitely beautiful. Plant them right away for magnificent blooms next year and years to come. **Postpaid.**

Large bulbs, each 40c; 3 for \$1.00

Peonies
Lilies

Tulips, Daffodils, Hyacinths, Crocus, Muscari and Madonna Lilies **must be planted in the fall.** Plant Daffodils, Poppies and Madonna Lilies as early as you can. Tulips, Crocus, Hyacinths and Muscari can be planted until the ground freezes but the ideal time is to plant when the tree leaves begin to fall. Plant Lilies, Peonies, Phlox and Iris as soon as you receive them from us.

Plant Tulips 8 to 9 inches deep and 6 inches apart. In southern states Tulips do best on the north and east side of the house. In all states the stems are taller, the flowers are brighter and last longer when planted in partial shade, especially if protected from the afternoon sun. Any ordinary, well-drained garden soil will do. A winter mulch of straw or lawn rakings is beneficial.

We guarantee our bulbs to please you when you get them and also when they bloom. We import them in car lots direct from the growing fields of Holland.

INTER-STATE'S FAMOUS *Giant Rainbow*

This fine collection is made especially for you who want beautiful Tulips and do not care to know the variety names. It is a hand-made mixture, made by us from fine named varieties. It contains all the different gorgeous Tulip colors from pure white to almost black, with many shades of red, pink, yellow, lavender, purple, orange and the lovely blends. We include the richly colored Darwins, the lovely pastel Cottage, the huge bold Breeders, the strikingly beautiful Triumphs, some of the graceful Lily-shaped and some of those magnificent new Ideals. **We do not include** any of the Early Single or Early Double Tulips.

The flowers are large, on tall stems and bloom here in late April and early May. The bulbs are the finest quality, large No. 1 size, imported by us in carlots direct from Holland. If you bought these very same bulbs by name, they would cost you much more. Customers from coast to coast have written us, telling how delighted they are with this collection. We do not believe there is a finer mixed collection in America.

Tulips are so easy to grow. Plant them in full sun or partial shade (the colors are even richer when they get afternoon shade). Set them with pointed end up, 6 inches apart and 8 to 9 inches deep. By planting this deep the bulbs last longer and come up year after year for several years without digging them up and re-setting. Also this deep planting generally stops mole trouble as they seldom dig this deep. You can plant shallow rooted plants like Petunias, Alysium, Asters, etc., to come on and bloom after Tulips are through.

Plant for beauty outdoors and also plant enough so you can cut some for bouquets.

Flowers Like Orchids

40 for \$1.00

These are the famous new DeGraff Hybrids, far superior to the older kinds. They bloom right after the Tulips and are lovely in the garden. They bloom over a long period, each stem producing several flowers. Few flowers equal them for cutting because they last so long in water and also their exquisite orchid-like blooms, on 18 to 24-inch stems, have a distinctive grace and beauty possessed by few flowers. Plant them early this fall, five inches deep, eight or nine inches apart, selecting a sunny, well-drained spot. In the colder states, protect with a winter mulch. The bulbs multiply in the ground, coming up year after year, giving you more and more flowers. At our low price, you can plant them freely. They will give you many very beautiful flowers at very low cost. Postpaid.

INTER-STATE'S

At one time Daffodils meant the long trumpet Narcissus. But now it means all types of Narcissi. Every yard should have some. They are so easy to grow and last a lifetime, coming up year after year without any attention, multiplying so that each year you get more and more blooms. Plant them early this fall 7 inches deep and a foot or so apart. Mulch lightly the first winter. They thrive in full sun or partial shade. Lovely planted in the shrub border. Their fragrant, cheerful flowers are so welcome in early spring, lovely outdoors and fine for cutting.

We are very proud of this list of varieties. These are the new, finer Daffodils. We have priced them so that many thousands can enjoy them. When they bloom next spring, you will be amazed at how much better they are than the Daffodils we considered so fine before the war. We import them from Holland. Grand outdoors, they also can be potted for bloom indoors. **Postpaid.**

INTER-STATE'S *Superb Daffodils*

9 FB 275. Here is a grand opportunity for you who want Daffodils and do not care to know the variety names. We have sold millions of bulbs in this mixed collection. It contains all the different types from the large yellow trumpets to the smaller clustered flowered. This gives you many colors and kinds of flowers and blooms over a long period. The bulbs weigh 10 pounds or more per 100 whereas many mixtures weigh hardly half this. So you can realize we are sending you fine bulbs. We make this mixture from named varieties so we know how good it is. Plant them early this fall 7 inches deep, 12 to 15 inches apart. They will come up year after year without any attention. Plant them in the shrub border, in corners, among the perennials, near the trees. They bloom just before the late Tulips. Lovely in the yard and their fragrant flowers are so fine for cutting. A mulch the first winter is helpful especially if you plant rather late. We guarantee these bulbs to please you when you get them and also when they bloom. **Postpaid.**

Inter-State's IRIS

Our Iris sales are increasing rapidly simply because we are doing our best to bring you better varieties at reasonable prices. The older kinds were fine in their day but these newer ones are so much better there is no comparison—larger flowers, richer colors, more blooms. Order early and plant early so that their roots get well established before winter (and we advise a mulch the first winter to prevent

heaving). Select a sunny spot and plant the bulb (rhizome) very shallow, so it is barely covered with soil and with the roots extending down into the ground. If the ground is dry, water every week. A little extra attention the first few weeks means a lot more blooms next spring. All Iris are postpaid.

IRIS OF DISTINCTION

You will find these in the finest Iris gardens in America.

FM 492 AZURE SKIES. The color is like the shimmering azure-blue sky on a summer's day. The flowers have perfect form, nicely ruffled, freely produced. Rarely indeed, does the hybridizer achieve such superior results. Strong, well branched, 33-inch stems. **Each \$2.00; 3 for \$5.00**

FM 485 BLUE SHIMMER. This creation of J. Sass is rated as one of the top ten Iris in America today. Large flowers of sparkling white with a wide border stippled and peppered deep blue. Outstanding yet not gaudy and once seen, never forgotten. Well branched stems over 3 feet tall. Extra fine bloomer. **Each \$2.50**

Large flowers, beautifully ruffled on 40-inch stems. Plant with Elmohr (page 17) for a marvelous effect. **Each \$1.50**

FM 484 OLA KALA. This is the Dykes Medal winner for 1948 (the award is always a year behind). It also is a masterpiece from J. Sass. Of all the Iris in America, the Iris experts rate it No. 1 this year. Superb flowers, medium large, heavily ruffled; the falls almost horizontal and the color is the richest golden yellow. Freely produced on sturdy, 3-foot stems. It is the center of attraction. Plant with Azure Skies for exquisite beauty. **Each \$2.50**

Inter-State's LIFETIME BLUE RIBBON PEONIES

Peonies last a lifetime, coming up year after year without any special care. Because they last so long, you should start with good varieties. Plant them this fall in a sunny spot, just deep enough so the eyes are covered with 1½ to 2 inches of soil. We are one of America's largest Peony growers, and our soil produces roots of great vigor. We send you strong divisions with 3 to 6 eyes.

FAMOUS SASS PEONIES

The Sasses have created many of American's finest Iris and Peonies. We have room to list here only a few of Mr. Sass's best known kinds. Our Special Peony List offers many more.

FM 623 CORAL QUEEN. Too new to be rated, we think it will rate high. Late. Large flowers, perfect form, large and a beautiful coral-shell-pink. **Each \$2.50**

FM 630 EVENING STAR. 9.50. Since it was named and introduced by us (with Mr. Sass's approval) a few years ago, this variety has now been officially rated at 9.50 and is recognized as being one of the very finest in all America. It blooms late and the flowers nearly always come singly on graceful stems. The color is pure snow-white with a few center petals sometimes showing a thin crimson edge. Perfect in shape as though each petal had been placed by hand. In fact it is so perfectly shaped and so beautiful that once you see it, you will readily recognize it when you see it again. A new Peony as fine as this is well worth \$5.00, but we realize that only a few fanciers will pay this much for something they have never seen. So we ask you to turn to page 20 and find out how you can get a slightly smaller plant of Evening Star without extra cost. We want thousands to have it in their garden. When their friends and neighbors see it, they will also want it and the increased sales justify us in making this offer. We can assure you that this wonderful white Peony is one of the world's finest and well worth the full price. **Each \$5.00**

FM 642 HANS P. SASS. 9.19. Late. Selected by Mr. Sass to bear his own name, this is one of America's finest. Large flowers of exquisite light pink. Truly superb. **Each \$2.50**

FM 643 HERMIONE. 8.80. Midseason. Large flowers of bright pink which open perfectly every year. One of our best performers. **Each \$2.00**

FM 644 IMPERIAL RED. 9.05. Midseason. This is a single with huge flowers as large as dinner plates. The color is red, yet a shade that is entirely different, so soft and pleasing. Very free bloomer and extra tall, strong stems. A sensation in the garden. **Each \$2.50**

FM 646 INTER-STATE YELLOW. This is not a Sass Peony but it is the ye lowest variety we grow. Large outer petals of light pink with full anemone-type center of rich yellow. If you think there is no yellow Peony, plant this. Very free bloomer. Certainly attractive and different in the garden and fine for cutting. **Each \$1.25**

FM 655 LAST ROSE. 8.93. Late. This is the last variety to open in our fields and it always opens perfectly. Lovely pink, edged apple-blossom. Tall, strong stems. **Each \$2.00**

FM 661 MARIETTA SISSON. 9.02. Early. The first pink to open in our large fields. Its large, shining pink flowers cover the bush so completely that you cannot see the foliage. No matter if it rains and blows, the stems still stand up straight. A bargain at this price. **Each \$1.50**

FM 681 POLAR STAR. 8.87. Midseason. Japanese type with wide outer petals of white and extremely large, full center of bright yellow. One of Mr. Sass's finest. Lovely in the garden and extra fine for cutting. **Each \$2.50**

FM 679 QUEEN OF HAMBURG. 8.96. Midseason. Its extra large flowers of bright deep pink are magnificent; Blue Ribbon Winner. **Each \$3.00**

FM 680 QUEEN OF SHEBA. Too new to be rated. Midseason. Large, perfect flowers of sparkling cerise-rose. Withstands rain and wind. A different color and a grand Peony. **Each \$2.50**

A copy will be sent free upon request. All Peonies are POSTPAID.

FM 684 SEA SHELL. Too new to be rated. Midseason. This is the finest pink single we have ever grown or seen. Olympic Hybrids

NEW OLYMPIC Hybrid Lily

B 79. A magnificent new hardy garden Lily that promises to change the entire Lily picture. This is probably the finest garden Lily to-day. Characterized by its great vigor, freedom of bloom, large size, beauty of flowers and graceful form. As these are grown from seed, there is a pleasing variation in the flowers, some are a cool icy green, others a delicate pink, different shades of yellow and some pure glistening white. They commence blooming right after the Regal and usually flower for three weeks to a month. They thrive in full sun or partial shade. Afternoon shade brings out best the delicate pink and green. Plant in a well-drained spot, 6 to 7 inches deep and they can be left undisturbed for several years. We send you large bulbs which will flower next summer. In cold states we advise a winter mulch to prevent alternate freezing and thawing. For a new Lily our prices are very low and we suggest ordering early so that you can be among the first to have the Olympic Hybrid. **Postpaid.**
